ABSTRACT

Regeneration is the Strength, the Continuation and Perpetration of Life.

The Regeneration of our Stem Cells is the key to explain our Life, whose length depends from their Operative Condition to repair damaged cells and substitute the dead ones, in a normal life.

Real Science could face and resolve many Human Health problems. If the Researcher will study the Natural Biological Programs and try to restore and reactivate them for a Correct Biological Function.

Keywords:

- Prana - Orgone = Life-Energy. (That makes you live, move and act therefore the one that a cadaver has not).
- Experimental Life Energy Machine: An electronic machine that shows over an analog-Dial the quantity of "Life-Energy". That can be normal, ipo, iper.

Introduction

The extensive artificial Poisoning of Water, Air, Food and Medical supplies that our Satanist - Owners have extensively provoked on our Planet, has deeply altered the Stem Cells normal functioning with an explosion of induced cancers and of "the most of - today - -degenerative Pathologies" that have been strengthened and incredibly increased with the Poisoning of the to-day "Vaccines" (anti-Covid Included) and all other "Traditional-Vaccines" whose devastating consequences are known and suffered by hundred millions of humans and animals - poisoned.

It is difficult to believe to a real "Holistic or Integrated Medicine" because Chemotherapies and Synthetic-Medicines cannot be integrated in any Natural-Medicine with any improvement, it is a problem of "Life-Philosophy" how can we conceive that a God "Creature could be "helped" or "Improved" by an "Artificial non-Biological product", also because too often the Action-Mechanism of Synthetic-Chemistries is "adverse to Life itself" as the well-known Chemiotherapy!

Once it is clear that we cannot "safely" improve or repair Biological Functions without side-effects with "not-natural-Medicines" we have now to focus on how to develop the Regenerative- Informational-Medicine from now on - R.I.M.-.

As first we have to understand that "Regenerative-Activity" needs "Biological-Energy" of whom nobody has spoken during our university studies unless about ATP and Glucose use, about this last we should read the works of a my Colleague Dr.Arturo

Solis Herrera from Mexico who has wrote a book : "Melanin the Precursor of every form of Life", demonstrating with his invented battery filled by Melanin that is lighting an electric lamp already by 20 years without any recharge and should go on for some hundreds of years - but he does not know for how long exactly - He has also said : if the Glucose should be the source of Life-Energy the Diabetic should be able to fly!!

Another important information is "when" Regenerative Processes take place.

Stem-Cells activity increases mostly by night when we are sleeping, to sleep is one of the most important Biological-Activity that is used to repair and substitute. damaged cells.

We need to sleep for a minimum of 8 hours better 9 to 10 hours and possibly 1/2 an hour to 1 and 1/2 hour after lunch.

We must sleep without chemistry help (unless natural products) it must be a long relaxed deep natural sleep, we must correct, understanding the causes, every element that could disturb it.

I do understand that I am proposing some possibly difficult "Life-Style" modifications in our "Toxic -To-Day-Life" but Stem-Cells have been conceived by God with a Biological-Program for a "Natural-Normal-non -Toxic- Environment" as at the -Eden-Time- and we cannot modify this fact that it is well known by our Satanist-Owners and used to make first People sick to enrich their Big-Pharma Industries and after to kill as many of us as possible because of the "Depopulation Agenda-Program".

Now that we know that the Melanin is the real Source of Life-Energy, we have to know that the Biological-Energy can be called "Prana or Orgone" and can be measured with a special electronic apparatus : "Life-Energy-Meter" : normal measures taken from the hand' palm contact on a steel-plate are about 80 to 100 of the measuring analogic-dial.

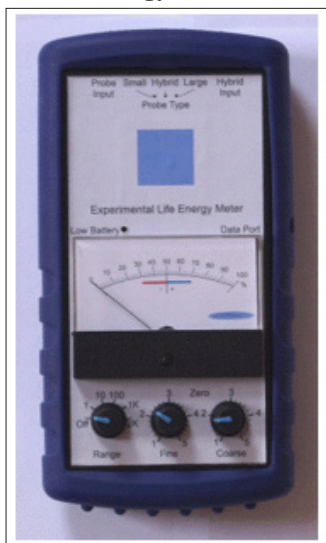

If the Life-Energy it is not enough the Stem-Cells will have a poor or just a survival Life Energy Quantity that will be spent for “most vital or survival biological functions” and aging process will run faster than normal and biological functions will start to be progressively deteriorated, inducing new Pathologies or worsening the already active ones.

Any upcoming Pathology must find a consistently reduced Life-Energy in an Organ or Body to be activated.

If the “Body or Organ” are in perfect Energetic-Balance like Yin-Yang Balance - no Sickness can affect (unless if willingly poisoned from out-side) that Body or Organ.

Also in the Physic of the Energies exist the law that the “Bigger eats the Smaller one” it means that if you have found a System to reload a Body or Organ in Energy-Lack you must be very careful to reload - slowly and gradually - with a lower Energy-Quantity less than the one present in the Organ-Body to be reloaded, otherwise you can obtain the opposite result meaning that you could even impoverish the Life-Energy-Quantity of that Body-Organ in Cure.

Experimental Life Energy Meter

The Greater Energy Source will absorb the smaller Energetic-System under reload even suckling all the lower Energy of the lower System.

To Reload Life-Energy there are several Systems

- Pranothrapy from an Healer, self-Pranothrapy, are two safe Systems because are self-regulated by “God Biological Intelligence”.
- Orgone Therapies through apposite Systems are effective on reloading but could be also reloaded in excess of Energy.
- Radionic Systems are effective in reloading but as for the Orgone must be released the Life-Energy in a progressive quantity increase verifying the results time by time not to risk the opposite effects (as explained above).
- Melanin you can find on the web the Medical Preparations from Dr.Herrera to reload with the Melanin.
- My R.I.M.Treatment that it is more complex and need many informations about how to correct and balance the Body with a Proper Diet-Beverages and Water Quality (about 1,5 hours of written and voice released informations) and how to substitute the majority of synthetic chemicals medicines and supplements with natural ones (without side effects).

I suggest the reader to find more informations on my previously published Scientific Articles about Stem-Cells - R.I.M.- Macular Degenerations Treatment and Glaucoma that can be found at: <httpswww.lombardieyeclinic.com>
